

Optical Line Generator for 11 parallel lines

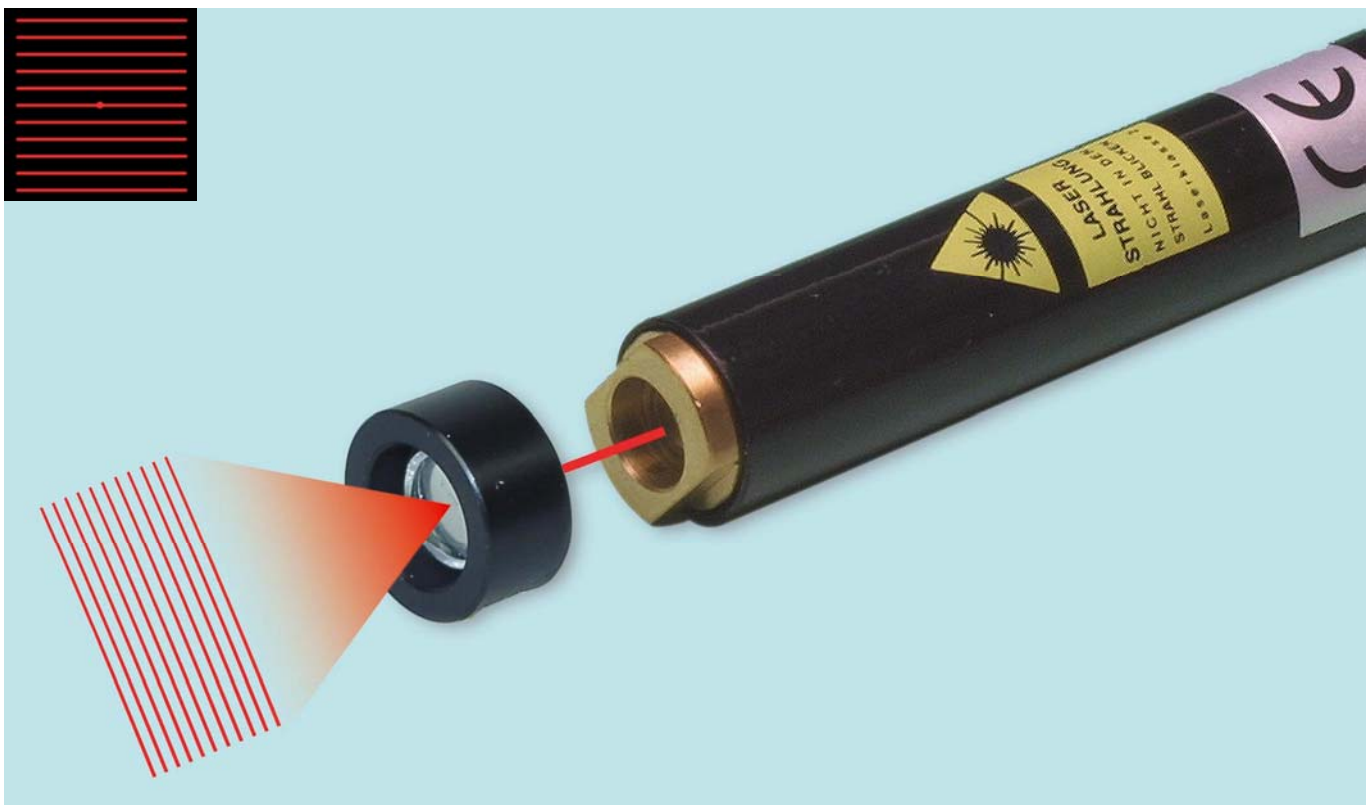

FEATURES

- turns a dot laser into 11 parallel laser lines
- cost saving
- flexible
- miniature
- suitable for Laser Modules "FLEXPOINT®" series
- Line Generator fixed or removeable
- focusable

GENERAL SPECIFICATIONS

Fan angle	approx. 30°
Angle between lines	approx. 3°
Wavelength	532 nm / 635 nm / 638 nm / 650 nm / 655 nm / 658 nm / 670 nm
Output power	up to 30 mW (wavelength dependent)
Basic module	series "FLEXPOINT®" (please contact us)

All specifications subject to change without notice.
