

405nm 4W Laser System

Specification:

- Lifetime: >10k hours
- Easy to use
- Cooling: TEC & Water Cooling
- Output power: >4W
- With PC control
- With Driver supply

Detailed Data:

- Output power from Fiber: >4W
- Wavelength: 405nm
- Fiber Length: 4.5m
- Fiber Core: 900um,
- Fiber N.A.: 0.46
- Fiber Connector: SMA905/PC/ST
- Power Supply: 220V , <400W
- Water Cooling: 15-25°C
- Water speed: ≥1L/min
- Operatation Temperature: 23±5°C
- Operatation Humidity: ≤70%(no dew)
- Storage Temperature: -30--80°C
- Storage Humidity: ≤90%(no dew)
- Size: 48*30*17 (customized)
- Communication connection: RS-232
- Weight: 3.5KG
- Control: Software

Warranty:

We offer 1 year warranty.
