X-Cite® 120PC-Q Product Discontinuation

The original X-Cite® 120PC was introduced nearly two decades ago. Now, three product generations later, a critical component for the motorized iris has gone end-of-life (EOL) and there is no straightforward replacement. Since many channel partners and integrators have transitioned to the X-Cite XYLIST™, we have decided not to redesign X-Cite 120PC-Q to accommodate a different motor. The time has come to completely discontinue the 120PC line.

Please note, the EOL component is ONLY used in the PC model. The popular X-Cite 120Q (manual iris) model is not impacted and will remain in production.

Last Time Buy Opportunity

We will be placing a last-time-buy (LTB) order with our supplier which will allow us to continue production until June 2024. If 120PC-Q is critical to your business, please contact your account manager to discuss options for securing inventory and switching to an alternate X-Cite light source.

Technical Support and Service

For X-Cite 120PC-Q systems already in the field, technical support, service and repairs will continue to be available for a minimum of five years post-discontinuation (i.e. June 2029). Replacement lamps and light guides will continue to be available for the foreseeable future, as they are used on the manual iris model as well.

Important Dates

| | |
|--------------------------|--|
| May 19, 2023 | Talk to your account manager about business-critical projects / LTB requirements |
| September 1, 2023 | Submit business-critical POs (recommended last date) |
| March 31, 2024 | Complete shipments of business-critical orders (recommended) |
| May 1, 2024 | Last day for general PO submission (estimate only, stock dependent) |
| June 2024 | Final production run for 120PC-Q (stock dependent) |

Important Part Numbers

For your reference, below are the X-Cite 120Q and XYLIS part numbers to consider as alternates for X-Cite 120PC-Q packages. Learn about the specifications and other light source options at our [website](#) or contact your Account Manager.

| | X-Cite 120PC-Q | X-Cite 120Q | X-Cite XYLIS (365nm version) |
|----------------------------------|-----------------------|--------------------|-------------------------------------|
| Unit only | 010-00171-QX | 010-00170-QX | 010-00416R |
| Including LLG | 010-00228 | 010-00157 | 010-00440R |
| Including LLG and adaptor | 010-00158 | 010-00153 | 010-00438R |

If you have any questions about this notice or any X-Cite product, please feel free to speak to your account manager or contact me directly.

Thank you for your continued support of X-Cite products.

Best Regards,
