The RBA CW pumped Nd:YAG laser module is an ideal building block in the development or production of medium power rod laser systems, the conversion of existing lamp-based laser designs to diode-pumping, or retrofit of existing arc lamp hardware to provide more stable and reliable operation.

*All prices displayed are US Domestic (per unit / low quantity) prices; please contact us for higher volume price structure.*

**SPECIFICATIONS**

Power	10 W
Number of Diode Bars	3
Power Per Bar	20 W
Pump Power	60 W
Rod Type	Nd:YAG
Rod Diameter	2 mm
Rod Length	63 mm
Diode Construction	Silver Bullet (indium solder)
Operation	CW
